This is the thirteenth report on project EREP 108 and it covers the month of July 1974.

The P. I. attended the planning session for the ASTP hand-held photography group in Washington, D. C. Lt. Roger De Vivo attended the SKYLAB working session in Huston, Texas, Dr. Gordon has included an atmospheric scattering model on his Monte Carlo code for the ocean and we are now preparing to evaluate the S191 data when it becomes available. Annual leave and other business trips occupied most of the month.

Recipients of the financial report are marked by an asterisc on the attached distribution list.
